## Install Your Custom Dream Garage

**Do You Have the Skills To Install Your Custom Garage? Do It Yourself and Save with Factory Direct Pricing.**

DIY (do it yourself) homeowners who have basic tools and experience can buy our product direct from the factory. Save BIG and get the satisfaction of creating your own custom dream garage.

### Get the Same First Rate Product for Your Custom Project

Our product is quality American engineered and manufactured, not imported, flimsy home-center product. SOS is made of furniture grade 3/4" material and each cabinet has a load capacity of 300 lb., a much more solid and durable alternative to other custom storage systems. SOS has 45 different models to meet all your storage needs and it is available in natural finish as well as 6 melamine finishes.

Cabinets are grouped by mounting depth. Shallow cabinets (12" and 16") are ideal for side walls and as upper cabinets. Deep cabinets (24") provide the most storage space, and make great base cabinets.

### Get Expert Design and Installation Advice

Our friendly, knowledgeable garage experts will assist you in designing your system, assembling your cabinets, and technical assistance throughout the final installation of your custom garage system. Free support before and after your purchase.

### How Will My Cabinets Be Shipped?

SOS Cabinets are shipped as Freight and come knocked down (disassembled) on a pallet that is 42" by 84". The entire shipment is shrink wrapped and outlined with blue tape to ensure the product is in original condition.

Shown to the left is a typical 1500 lbs Pallet of Cabinets. (Normal 20 linear feet of cabinets.)

### How Will My Custom Cabinets Be Delivered?

#### Home Delivery

All SOS Products can be shipped to a residence, however there are additional fees for doing so.

#### Dock Delivery

SOS Products are most commonly shipped to Freight Terminals where you can retrieve them with any standard pick-up, trailer, or van. There are considerable savings with this option - \$100 to \$275 depending on your area.

Simply drive to the dock in any standard pickup or with a trailer and the Freight Associates will load your shipment into your vehicle.

**Call us for questions or to locate the Freight Terminal nearest you. 585-352-1050**
